ABOUT ME

Kia ora! I'm Manasa, a full-stack developer with an honours degree in Chemical and Bioprocess Engineering and a passion for turning curiosity into well-crafted code. Before moving into tech, I worked in quality control and lab environments where I analysed production data, calibrated complex equipment, and troubleshooted process deviations under strict compliance standards.

My engineering background taught me how to break down complex systems, think analytically, and solve real-world problems methodically — all skills I now bring to software development. I recently completed Dev Academy Aotearoa's intensive bootcamp, where I immersed myself in full-stack development and modern frameworks.

Now, I'm excited to combine my technical mindset, love for detail, and cross-industry perspective to build scalable, user-friendly applications that make a difference.

SKILLS

- Experience in **JavaScript, React, HTML, CSS, Node.js, REST APIs, Express, Knex, SQLite3, basic testing tools like Jest and Supertest.**
- Experience with both front-end and back-end development, using tools like Typescript
- Self-learner with systematic decision making, problem solving and troubleshooting skills.
- Good team working abilities as well as ability to work independently.

EXPERIENCE

DEV ACADEMY AOTEAROA, AUCKLAND - (January 2025 - May 2025)

Software Engineering (Full Stack Development) - Student

- Completed a 17-week full-time web development bootcamp.
- Learned key technologies including JavaScript, React, HTML, CSS, Node.js, REST APIs, Express, Knex, SQLite3, Supertest, git and basic testing tools like Jest and Supertest.
- Gained experience with both front-end and back-end development, using tools like Typescript.
- Built several web apps through hands-on coding challenges, both solo and in team projects.
- Worked in group projects that simulated real-world software development teams, focusing on planning, collaboration, and building complete applications.
- Developed strong communication and teamwork skills through training in active listening, giving and receiving feedback, handling tough conversations, and emotional intelligence.
- Learned how to navigate different communication styles and build positive team dynamics.

DECORA GROUP LIMITED, AUCKLAND - (September 2022 – August 2024)**Quality Control Technician**

- Quality Control testing of production batches.
- Assisting with troubleshooting and adjustments to batches to ensure compliance.
- Working with the Technical Manager, to design and develop products from readily available raw materials as required.
- Operation, calibration and maintenance of laboratory equipment.
- Provide accurate color match tint formulations utilizing company equipment and procedures.
- Identification and escalation of product or service quality issues.

TRAVEL - (December 2021 - August 2022)

- Took time away for my wedding abroad and navigated COVID-19 travel restrictions while preparing to re-enter the New Zealand workforce.

GLEN EDEN BOWLING CLUB, AUCKLAND - (April 2021 - November 2021)**Customer Service**

- Assist the committee to maintain the Club's standards and bar operation.
- Ensure the serving of alcohol meets the legal requirements of the Liquor Controller Qualification (LCQ).

CAREER BREAK - (June 2020 - March 2021)

- Took a proactive health and well-being break while actively seeking new career opportunities during the challenging COVID-19 period.

WENDY'S HAMBURGERS, AUCKLAND - (July 2019 – May 2020)**Customer Service**

- Interacting with customers on a day to day basis and taking orders.
- Training new crew to operate tills and other responsibilities.

ANZCO FOODS LIMITED, WAITARA - (Jan 2019 – March 2019)**Project Food Technologist - (Internship)**

- Performing experiments to confirm the equilibrium time of patties.
- Performed experiments to find the issues causing freezer burns in meat patties and providing detailed reports.

EDUCATION

- **Certificate in Applied Software (NZQA Level 6)**, Dev Academy Aotearoa (2025).
- **Bachelor of Engineering (Hons)**, Major in Chemical and Bioprocess Engineering – Massey University, New Zealand (2019).

INTERESTS

- I enjoy hiking, with a highlight being the Tongariro Alpine Crossing, and have completed several smaller hikes.
- Play badminton and enjoy cooking, especially desserts.
